Visitor car park	$6.35 hourly $17.05 daily max	$6.35 hourly $17.05 daily max

Terms and Conditions

[1] See car park map [PDF 338KB] for locations of permit types. Melbourne permits are valid for parking at Bendigo Campus in the white general parking bays only. Bendigo permits are **not** valid for parking at Melbourne Campus.

[2] If you are a part-time or full-time staff member, you are eligible to purchase your permit through salary deduction. Permits purchased through salary deduction will be ongoing with no need for renewal and will

discontinue when you cancel them. Annual fee increases to permits will automatically be applied to the fortnightly amount deducted. You will be notified in advance of the annual fee increase, giving you time to cancel if you choose. When purchasing a permit through salary deduction, you will be charged in fortnightly instalments and will be charged for the entire fortnight regardless of the actual number of days that the permit was used within the period. Please refer to the vPermit Terms and Conditions.

[3] A half yearly permit for the periods of 1 Jan - 30 June and 1 July - 31 Dec will be available for purchase one week prior to the respective period. Both periods will be charged at the same rate.

[4] Valid for 90 days from the date of purchase. 90 day permits are only available to continuing staff and temp staff (not available to students or La Trobe College staff).

[5] If you hold a valid accessible parking permit, you can park in any available accessibility bay for free and must display your accessibility permit. If you park outside of an accessible bay, standard parking fees apply.

[6] Red Reserved and Black permits are for staff who have been assigned a specific parking space. Eligibility criteria applies and you need to consult Traffic and Parking before purchasing one of these permits.

[7] The Concession White Permit for staff is a new category for staff who hold a Government Health Card. For more information and to apply, please email traffic@latrobe.edu.au

More information
